

## Illustrator CS3: Level 2

1 Day

### Description

Illustrator CS3: Advanced is the second of two Illustrator courses. In it, participants learn more advanced manipulation of paths and masks, and how to enhance fills and strokes. They learn how to use transformation tools, envelopes, filters, effects, and graphic styles. Participants learn how to convert raster images to vector art, and how to manage color settings, color separations, and print specifications. Finally, participants learn how to create and manipulate slices, and how to optimize and export images for the Web.

### Prerequisites

- Illustrator CS3: Level 1
