

Dreamweaver CS3: Level 2

1 Day

Description

This ILT Series course builds on the skills and concepts taught in Dreamweaver CS3: Basic, ACE Edition. Participants will learn how to define content sections and build a layout using style sheets; manage site assets; work with templates; create interactive forms; apply rollovers, behaviors and multimedia files; integrate XML-based data and transform XML with XSLT; collaborate with other developers, and check for accessibility and compatibility problems.

Prerequisites

- Dreamweaver CS3: Level 1

Objectives

After completing this course, you'll know how to:

- ✓ Define content sections.
- ✓ Build a layout using style sheets.
- ✓ Manage site assets.
- ✓ Work with templates
- ✓ Create interactive forms.
- ✓ Check for accessibility and compatibility problems.
