

Illustrator CS4: Level 1

1 Day

Description

This ILT Series course covers the fundamentals of Illustrator CS4, which is used primarily to work with vector-based graphics. After getting familiar with the Illustrator CS4 environment, students will learn how to create a simple illustration by creating and manipulating shapes and by drawing and editing paths. Students will also learn how to apply color, gradients, and transparency. They will then learn how to work with text and layers.

Table of Contents:

Unit 1: Getting started

Topic A: The Illustrator environment
Topic B: Navigation
Topic C: Adobe Help
